

Staff Bulletin - Branches

Attention: All VINZ Staff

No./ date: 210904 / September 2021

From: Sean Stevens – CEO

Subject: COVID – 19 Level 3 Mt Wellington Staff Bulletin

Hi All,

We have been informed that one of the 3rd party mechanics working at Mt Wellington Compliance, has been advised he is a close contact of a positive case. We have not yet had a returned test, but he is isolating and awaiting a test result.

As far as we can tell he has been onsite since we opened at Level 3 and although confined to only Mechanical work on the compliance units, it is possible that VINZ staff have had interaction with him. As all have been following COVID protocol the risk should be minimal, however all staff are now Secondary close contacts. As such all Mt Wellington staff who have been onsite and used facilities since Wednesday 21st September **MUST get a test TODAY and isolate**. At this point Healthline have advised staff to isolate awaiting a 5-day negative test which will mean the station is closed till Tuesday 5th October at the earliest, however we will update as the information comes to hand.

All staff should monitor for symptoms and if in doubt phone **Healthline 0800 358 5453**

Shawn, Mike and Robbie will be your contacts for this, and we will update all staff once we hear back about the individuals test results. Please take all precautions in the interim.

Shawn – 021 847 585

Mike – 021 285 8679

Robbie – 029 765 3880

Below is the link to the MOH website with the testing centres.
